PROFESSIONAL SUMMARY

AI-Integrated Full-Stack Developer with a focus on building **real-world AI applications**. Delivered 8+ production-grade applications during a residency at ASPL, specializing in agentic AI systems and RAG pipelines using Gemini, Claude, and OpenAI. **Advanced Python programmer** with deep knowledge of AI/ML fundamentals. Decreased feature delivery cycles by 30% through AI-assisted engineering, focusing on scalable solutions that resolve complex business problems.

TECHNICAL SKILLS

- **Core Fundamentals:** Python (Advanced Proficiency), NLP Concepts (Embeddings, Tokenization, Transformers), AI/ML Core Theory, Vector Search.
- **AI Frameworks & Tools:** Gemini 2.0 Flash, Hugging Face, OpenAI SDK, Claude API, LangChain, RAG Architectures, Prompt Engineering.
- **Backend Engineering:** Node.js, Python Flask, RESTful API Design, NextAuth.js, Playwright, Prisma ORM, SQLAlchemy.
- **Frontend Engineering:** React.js, Next.js 14 (App Router), TypeScript, Tailwind CSS, Framer Motion, GSAP.
- **Databases & Infrastructure:** PostgreSQL, MySQL, MongoDB, Firebase, AWS (EC2, S3, IAM, VPC), Docker, Linux.
- **DevOps & Automation:** Git/GitHub, Jenkins, CI/CD, n8n Automation, Jira, Agile/Scrum, CodeRabbit.

WORK EXPERIENCE

ASPL | Software Development Intern | Bengaluru | November 2025 – March 2026

- **Managed Client Delivery:** Directed the end-to-end development of 8+ production projects, achieving 100% on-time handoffs and increasing development velocity by 30% via AI-assisted engineering.
- **Engineered RVTS (researchvisions.com):** Built a Next.js 14 SaaS platform that improved client SEO performance by 45% through the inclusion of automated content generation pipelines.
- **Developed AIM Model (aimmodel.in):** Architected a dark-themed portfolio featuring custom GSAP animations and DOM-driven sliders, resulting in a 20% improvement in UI responsiveness across mobile devices.
- **Orchestrated Cloud Deployments:** Managed the deployment of 5+ enterprise sites on Hostinger Linux VPS using Nginx; merged n8n automation workflows to handle 500+ monthly lead captures autonomously.
- **Led Technical Mentorship:** Supervised a team of 4 developers, implementing CodeRabbit for AI-driven code reviews which reduced manual debugging time by 15% per sprint.

UTL Technologies | Cloud Infrastructure Intern | Bengaluru | September 2024 – November 2024

- **Automated Infrastructure:** Configured AWS environments (EC2, S3, VPC) for AI pipelines, utilizing Python shell scripts to eliminate 40% of manual deployment overhead.

KEY PROJECTS

Career-Ops: Autonomous AI Job Search Agent

- **Built End-to-End Automation:** Developed a Gemini 2.0 Flash agent to scrape, evaluate, and rank 100+ job opportunities daily based on specific profile alignment.
- **Leveraged NLP & Web Scraping:** Incorporated Playwright and NLP-driven scoring models to analyze Job Descriptions, filtering out 80% of low-match offers to prioritize high-quality applications.
- **Document Generation:** Embedded a dynamic PDF engine to produce ATS-optimized resumes, resulting in a significant increase in recruiter response rates during testing.

HRMS — AI-Enabled Management System

- **Optimized Workflows:** Engineered a React and Flask-based system that digitized 100% of onboarding and attendance processes for a client with 4 departments.
- **Data Security & Analytics:** Coupled PyJWT authentication with SQLAlchemy ORM to secure multi-table PostgreSQL queries, providing HR with real-time leave and performance insights.

IoT Employee Attendance System — Face Recognition

- **Production Computer Vision:** Deployed a Raspberry Pi system using OpenCV and Firebase for edge-based facial recognition, providing 99% accuracy in server-independent attendance tracking.

EDUCATION

- **Bachelor of Computer Applications (BCA)** | CGPA: 8.5 | *September 2023 – August 2025*
Community Institute of Commerce & Management Studies, Bengaluru
- **Higher Secondary Education (Class XII)** | CGPA: 5.3 | *August 2021 – September 2023*
Mother Theresa ECI School, Tamil Nadu

CERTIFICATIONS & ACHIEVEMENTS

- **Cloud Security Fundamentals & Generative AI** — Google Cloud | [Certificate](#)
- **AWS Cloud Practitioner** — Certified, Amazon Web Services
- **IT Quiz Winner** — CICMS College Fest
- **IT Manager Award** — Excellence in Leadership, CICMS
- **Photography Award** — Creative Arts Category, CICMS

SOFT SKILLS

- **Client Management:** Successfully translated requirements for 5+ external clients into technical deliverables with a 100% satisfaction rate.
- **Event Leadership:** Organized 4 major tech fests, managing 100+ participants for Hackathons and Technical Charades.
- **Real-World AI Application:** Deeply passionate about transforming theoretical AI models into production-ready products that impact end-users.
